

## **Lecture – Biome and climate relationships**

### **Terms to know relevant to today's lecture:**

Arid climate

Biome

Climate diagram

Coniferous tree

Convergent evolution

Ecosystem

Homologous climates

Humid climate

Life form

Mediterranean climate

Meristem

Perennating bud

Physiognomy

Raunkiaer life form

### **Biomes**

- Boreal forest
- Coniferous forest
- Deciduous forest
- Desert
- Grassland
- Rainforest
- Savannah
- Shrubland
- Steppe
- Tundra
